Art Unit: 2815

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 2-6 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Fukusho '609.

The previous rejection still applies.

Claims 17-20, 22-25, 27 and 28 are allowed.

Applicant's arguments have been fully considered but they are not persuasive. Contrary to applicant's assertions, the light shielding films 16 and 17 of Fukusho are not formed over light receiving portions. Applicant has erroneously construed regions 10 to be light receiving portions whereas the proper light receiving portions are at 1. Read the specification. Regions 8 and 9 at area 1 in Fukusho comprise the light responsive photodiode. Clearly in every device of this type the light reflecting films do not and cannot cover the photodiode area or else no light would reach the photodiode and the device would not work. Applicant's arguments are thus completely unconvincing of patentability.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2815

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
